### **DETAILED ACTION**

1. Claims 1-7, 9-27, and 29-35 are pending.
2. Claims 8 and 28 have been cancelled.

### ***Response to Arguments***

3. Applicant's arguments filed 18 January 2005 have been fully considered and they are persuasive.

### ***Claim Rejections - 35 USC § 101***

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 23 and 31 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 23 is directed to a computer-readable medium including an encoded data structure representing a password cookie. Although the claim recites a "data structure", the recited limitations of password, cookie, etc. do not meet the definition of a data structure, namely "a physical or logical relationship among data elements, designed to support specific data manipulation functions". The claimed elements instead appear to describe a mere arrangement of data, which constitutes non-functional descriptive material, and is therefore not statutory subject matter. See MPEP § 2106 IV.B.1.

### ***Allowable Subject Matter***

6. Claims 1-7, 9-22, 24-27, 29-30, and 32-35 are allowed.
